# WizONE

Free Internet WiFi

*This WizONE is an InternetONE project which has been created to offer a free internet connection. You can move in the WizONE and stay connected to access services using your smartphone, laptop or tablet.*

## How to Surf

The WIZONE network is detected by wi-fi devices (smartphone, tablet, PC etc.) in all areas covered by the service.

After detecting the network "InternetONE\_FREE" (NB: in some areas the name of the Network/SSID could be different), the welcome page will be displayed.

From the welcome page you can register to the service. Registration is needed to surf the Internet.

A screenshot of an iPad displaying the InternetONE Wi-Fi welcome page. The page is titled "WizONE Wi-Fi" and includes a registration form. The form has fields for "USERNAME" and "PASSWORD", with example values "00413331224567" and "12345" respectively. A large button labeled "ACCESS WI-FI NETWORK" is positioned below the form. The page also contains a registration notice and a disclaimer at the bottom.

**WizONE Wi-Fi**

WIZONE WIFI is a free WiFi service powered by Internet ONE. It allows you to surf the Internet in a lot of places around here. For more information visit [www.en.wizone.internetone.it](http://www.en.wizone.internetone.it).

**Registration** is required to access Internet service. Online registration requires a valid mobile number and is free of charge. The account credentials will be sent to you using a SMS text message. Fill in the following form with USERNAME and PASSWORD received by SMS after registration. Once logged in, you can browse the Internet for free. All your future logins to the "InternetONE" wifi network must be done using credentials provided during the first registration.

USERNAME   
*Example: 00413331224567*

PASSWORD   
*Example: 12345*

**ACCESS WI-FI NETWORK**

This service is available for adults only. Free access has a limited speed and a filter blocking malicious or objectionable content. By accessing the system, you accept the terms of service published on web site [www.internetone.it](http://www.internetone.it). During the connection, you can log off by pressing [this log out link](#).

## How to Register

Registration is allowed only when connected to the WIZONE wireless network, so you have to go to one of the active hot-spots.

- With your wifi device, look for the “InternetONE\_Free” wireless network.
- Connect to the network. In a few seconds you will be redirected to the welcome page. If this does not happen, try to surf with your browser.
- Click on the link “REGISTRATION” (see the following image)

A screenshot of an iPad displaying the registration page for InternetONE Wi-Fi. The page is titled "WizONE Wi-Fi" and includes a red arrow pointing to a "Registration" link. The registration form contains fields for "USERNAME" and "PASSWORD", with example values provided. Below the form is a button labeled "ACCESS WI-FI NETWORK". The page also includes a disclaimer at the bottom regarding service availability and terms of use.

WizONE Wi-Fi

WIZONE WIFI is a free WiFi service powered by Internet ONE. It allows you to surf the Internet in a lot of places around here. For more information visit [www.en.wizone.internetone.it](http://www.en.wizone.internetone.it).

Registration is required to access Internet service. Online registration requires a valid mobile number and is free of charge. The account credentials will be sent to you using a SMS text message. Fill in the following form with USERNAME and PASSWORD received by SMS after registration. Once logged in, you can browse the Internet for free. All your future logins to the "InternetONE" wifi network must be done using credentials provided during the first registration.

USERNAME   
Example: 00413331234567

PASSWORD   
Example: 12345

ACCESS WI-FI NETWORK

This service is available for adults only. Free access has a limited speed and a filter blocking malicious or objectionable content. By accessing the system, you accept the terms of service published on web site [www.internetone.it](http://www.internetone.it).  
During the connection, you can log off by pressing this [log out link](#).

From the Welcome Page you have to input your mobile phone number (please select your Country code too) and your email address, needed for registration.

You have also to choose a personal password with 5 numbers.

A screenshot of an iPad displaying the registration page for InternetONE. The page is titled "register.wizone.internetone.it" and "InternetONE-FREE". It features a red header with the "WizONE Wi-Fi" logo and the "internetone.it" logo. Below the header, there is a blue information bar stating: "By clicking on 'Request' you accept the 'Terms of use' and you will receive an SMS on your mobile with the password for access." The registration form includes fields for "Country code (\*)" (set to "Italy (+39)"), "Mobile (\*)" (with "0039" pre-filled), "Email (\*)", and "Password, 5 digits (\*)". A "Request" button is located below the form. At the bottom, there is a "Terms of use" section with a scrollable text area containing the following text: "1) Oggetto del contratto. Internet ONE S.R.L., corrente in Varese (VA) in Via Piemonte 95, C.F. e P. IVA IT02286170127, iscritta alla C.C.I.A.A. di Varese al n. 0243967, Registro Delle Imprese di Varese n. 02286170127, di seguito denominata InternetONE, si impegna ad offrire al Cliente, che accetta, alle condizioni qui di seguito riportate, il servizio di accesso alla rete Internet in modalità Hot-Spot Gratuito wireless con limitazione di banda ad 1Mbit/s." Below the terms is a checked "Accept" checkbox.

Continue by clicking on “REQUEST”. You will receive a message to valid the password by SMS (on the selected number) and by email in a few seconds.

Now you'll have 15 minutes to valid your password. To valid the password you have to click on the link included in the SMS or in the Email received. By this time you can browse your web-email for free without any volume limit and without registration.

After the validation, you can login to the service from the welcome page. You have to input your USERNAME (your mobile number with Country Code) and the PASSWORD you have choosen.

Once logged in, you can browse the Internet for free. All your future logins to the “WIZONE - InternetONE\_FREE” network will be done using the password provided during the first registration.

Please remember that some dangerous or illegal web sites could be blocked. For example porn and gambling sites are not allowed on this network. This filter is powered by opendns.com.

For more info about the service you can visit:
